Jonathan M. Genn, Esquire  
Executive Vice President & General Counsel  
Global Lifesci Development Corporation  
11900 Tech Road  
Silver Spring, Maryland 20904

Re: **Percontee Cherry Hill Road Sand and Gravel Quarry Site – White Oak, Maryland**

Dear Mr. Genn:

The Maryland Department of the Environment (“Department”) has received Global Lifesci Development Corporation (GLDC) and Percontee, Inc.’s November 16, 2017 letter addressed to James Carroll (Program Administrator of the Department’s Land Restoration Program) and Edmon Larrimore (Program Administrator of the Department’s Mining Program). This letter provides the Department with information regarding several issues identified in the Department’s November 15, 2017 letter and clarifies several minor issues regarding GLDC project. Accordingly, the Department finds all of the actions described in your November 16, 2017 letter as acceptable and in conformance with the relevant statutes and regulations pertaining to mine reclamation.

This letter further reaffirms the Department’s statement that the final form of the Comprehensive Remedial Action Plan entitled “Percontee Cherry Hill Road Facility-Revised” and dated November 16, 2017 has been received and is officially approved by the Department as the final plan.

If you have any questions please contact Gary Schold at (410) 537-3437 or [Gary.Schold@Maryland.gov](mailto:Gary.Schold@Maryland.gov).

Sincerely,

James R. Carroll, Program Administrator  
Land Restoration Program
